\* : Locations are not routinely monitored. Testing at these locations was in response to the June 17th flood event.

\*\* : Locations that are being sampled by Keweenaw Bay Indian Community. All other locations are sampled weekly.

**Notes:** 1) Bobcat Lake has not been resampled due to road closure.

2) Lighthouse Overlook is under a precautionary closure due to authorized lagoon discharge.

3) Lake Linden Beach bacteria levels are within limits; however Lake Linden is under a continued precautionary advisory due to chemical contaminants in the soil and sediment from mining waste.
